PROFILE

I am a high energy individual that enjoys learning new skills. Web development is like building a puzzle and my persistence is key in solving any problems I face in web development. I've always been interested in building websites since I was younger. Being able to host websites that other people would use has always intrigued me. I set my mission to build a website that many people will use in the future.

SKILLS

JavaScript, HTML, CSS, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) API, Web APIs, User Authentication, OAuth, Heroku, GitHub, Jest, Bootstrap, Scrum, Premiere Pro, Computer Hardware

PROJECTS

Collaborative | Guess The Country

June 2022

- Developed a web browser game with one other web developer that uses an API with all countries in the world where you have to guess the country that belongs to the given flag.

Collaborative | InStock

June 2022

- A full stack application that was worked on by four web developers to create a warehouse website that keeps a list of all inventories and is able to add, edit or remove items from warehouses.

Lead Coder | WeDevelop

July 2022

- A full stack web developer freelancing website that stores data in MySQL and allows users to create their own account and make posts to find freelance work.

EDUCATION

BrainStation | Diploma, Web Development

APRIL 2022 - JULY 2022, Ottawa, Canada

Code Youth | Certificate, Web Development

DEC 2021 - FEB 2022, Ottawa, Canada

Rideau High School | OCDSB - Diploma

SEPT 2010 - JUNE 2014, Ottawa, Canada

EXPERIENCE

Head Coach | XP League Youth Esports League

AUG 2021 - DEC 2021, Ottawa, Canada

- Worked alongside the XP League owner to develop youth engagement and business strategies to launch the first-ever XP League in Canada.
- Coached youth to be a part of an Esport League, where they had to navigate through various video game applications and improve their gameplay.
- Enhanced activity strategies to help users of different computer ability levels engage in activities.

Content Creator | Self-employed (Masekurr)

JAN 2020 - Present, Ottawa, Canada

- Created a gaming community for 2700+ members across Twitch and Discord.
- Created over 50+ video content for the community and managed all aspects from pre- through post-production, including script writing, shooting, editing, sound mixing.
- Hosted LIVE Streaming Tournaments for our gaming community members
